

SURPLUS AND HARVESTED SEMICONDUCTOR PARTS

Surplus and harvested parts maximise the lifespan of semiconductor fabs when replacing specialist capital equipment is expensive and downtime is not an option.

When you choose Retronix Semiconductor as your primary parts supplier, you gain the benefit of our global network of supply partners, clients, and customers - meaning you simplify your supply chain, cut costs, and save time.

Our surplus and harvested parts are documented, photographed, and stored by our knowledgeable and experienced team who conduct a thorough inspection for quality and condition. The team will also:

De-install tools and harvest parts at one of our sites or at your location

Source hard-to-find parts from our global network of customers, clients, and partners

Evaluate and manage your surplus and obsolete parts inventory

MAGNETIC HEATER UNIT
CD-SEM S-8820

LOGIC INTERFACE ASSY
101927003 REV K

VARIAN E-SERIES ACCEL
STACK + PSU 4S858-505

LEYBOLD TURBOVAC
340M

VARIAN E-SERIES
IMPLANTER

NOVELLUS LOCK LOCK
DOOR ACTUATOR LEFT ASSY

The Retronix Semiconductor inventory is constantly changing as new stock arrives and customers benefit from our service excellence and competitive pricing.

At any time our inventory will contain parts from across the semiconductor equipment portfolio - including items from brands such as; KLA, Brooks, Varian, LAM, Honeywell, Nikon, Ebara, Hitachi, and Kokusai.
